

ADHWAIDE KRISHNA

Ernakulam, Kerala | +91-6282262366 | adhwaidekrishna@gmail.com

LinkedIn: linkedin.com/in/adhwaide-krishna | GitHub: github.com/Adhwaide

EDUCATION

Bachelor of Science in Artificial Intelligence & Machine Learning

CMS College of Science and Commerce, Coimbatore | Expected Graduation: May 2026

Relevant Coursework: Data Structures, Python, C++, R Programming, IoT, Business Data Analytics

TECHNICAL SKILLS

Programming: Python, C++, R, JavaScript, HTML, CSS

AI/ML: LLMs (Mistral), YOLOv8, TensorFlow, PyTorch, Hugging Face, Vector Embeddings, NLP, Computer Vision

Frameworks: Django, React, REST APIs, WebSockets

Data Analytics: Power BI, Tableau, Pandas, NumPy, Excel, Statistical Analysis

Tools: Git, GitHub, Google Colab, AWS (Familiar), Algorithmic Trading Systems

PROFESSIONAL EXPERIENCE

Python Developer Intern | Remote

02/12/2024 to 22/12/2024

- Designed and developed full-stack web application using Django framework with integrated frontend and backend
- Implemented RESTful API endpoints and database architecture for seamless data management and scalability
- Deployed production-ready web application with optimized performance and security features

PROJECTS

Digital Immortality Platform | ML Lead / AI Architect

Mar 2025 – Present

- Designed persona modeling framework using semantic embeddings and contextual memory graphs to simulate human conversational traits and behavioral patterns
- Integrated LLM-based response generation with vector similarity search for context-aware dialogue generation
- Architected scalable memory retrieval pipeline to store and reconstruct personal knowledge, behavioral data, and personality embeddings
- Built prototype conversational agent representing digital persona with context-aware responses based on stored personality embeddings

AI Vision Assistant with Real-Time Interaction

Jan 2025 – Apr 2025

- Built AI-powered assistant integrating YOLOv8 for object detection and Mistral LLM for natural language scene descriptions
- Implemented voice command processing with speech recognition and text-to-speech for hands-free interaction
- Optimized model inference for Intel UHD integrated GPU, achieving efficient real-time performance on resource-constrained hardware

Algorithmic Trading System for Indian Markets

Oct 2024 – Feb 2025

- Designed automated trading system for Indian stock market using Zerodha API with custom technical indicators
- Developed signal generation algorithms based on expected value principles and implemented comprehensive risk management protocols
- Built backtesting framework for strategy validation and performance analysis across historical market data

AnonTalk - Anonymous Real-Time Chat Platform

Aug 2024 – Nov 2024

- Developed secure anonymous chat application using WebSocket integration for real-time messaging with privacy-focused architecture

CERTIFICATIONS & ADDITIONAL EXPERIENCE

Certifications: Introduction to Ethical Hacking (Coursera) | Data Science Foundations (Coursera) | Power BI Essentials (Microsoft)

Finance: 6 years of investing experience | 5 years of active cryptocurrency and stock trading

Languages: English (Fluent), Malayalam (Native), Hindi (Fluent)
